Hello Mr. Weisberg, 11-4-91

I've recently become re-interested in the JFK assassination and have been watching lots of VIDEO on the subject. Countless times I've seen you interviewed disputing the Warren Comission conclusively.

I was 6 years old on 11-22-63, remember it like it was yesterday and believe this country has never recovered. I'm a liberal ACLU-member Democrat and my heroes are people like Hubert Humphrey, BILL MOYERS and ANITA HILL. And you too Mr. Weisberg are a great PATRIOT. A man of truth who I greatly admire.

I obtained your address through ROBT GRODEN'S "HIGH TREASON" I have a dozen books on the assassination but am having a hard time locating out-of-print books. Do you know of a good source to locate and purchase these publications? What are your favorite books on the conspiracy? GRODEN'S bibliography mentioned a few books you authored. Can I obtain them from you?

I must sound like a PEST WITH so many questions and you're probably TIRED of sophomoric SLEUTHS but I would love to someday possess the knowledge and WISDOM that you must encompass.

Do you send-out publicity
